After completing these steps you should have a dial tone and be able to make and receive phone calls. **If you do not have a dial tone or are having trouble making and/or receiving calls, please refer to the "System Configuration" section below.**

System Configuration

Due to the nature of different devices and Internet Service Providers, some customers will need to further configure their system before they can make and/or receive calls. To make this process as simple as possible, we provide Cordia Help Desk resources who are ready to walk you through the necessary configuration quickly and easily. Contact the Cordia Help Desk by calling +632 501 5001 or by email at support@cordiaip.ph

For DSL Users Only
To help configure your system, we will need some important information from your Internet Service Provider. Please obtain this information before contacting the Cordia Help Desk.
